About IIABC

The Irrigation Industry Association of British Columbia (IIABC) is a prominent membership organization established in 1979, dedicated to serving the diverse professionals within the irrigation sector. Our membership comprises manufacturers, dealers, distributors, designers, consultants, contractors, and end users, all united in their commitment to advancing irrigation practices and water management across the province.

For over 45 years, IIABC has played a pivotal role in shaping the future of irrigation in British Columbia, fostering sustainable practices and promoting effective water management for the benefit of all stakeholders. Through our initiatives in education, certification, and industry collaboration, we strive to enhance the knowledge and skills of our members, ensuring they are equipped to meet the challenges of an evolving industry.

Land Acknowledgement

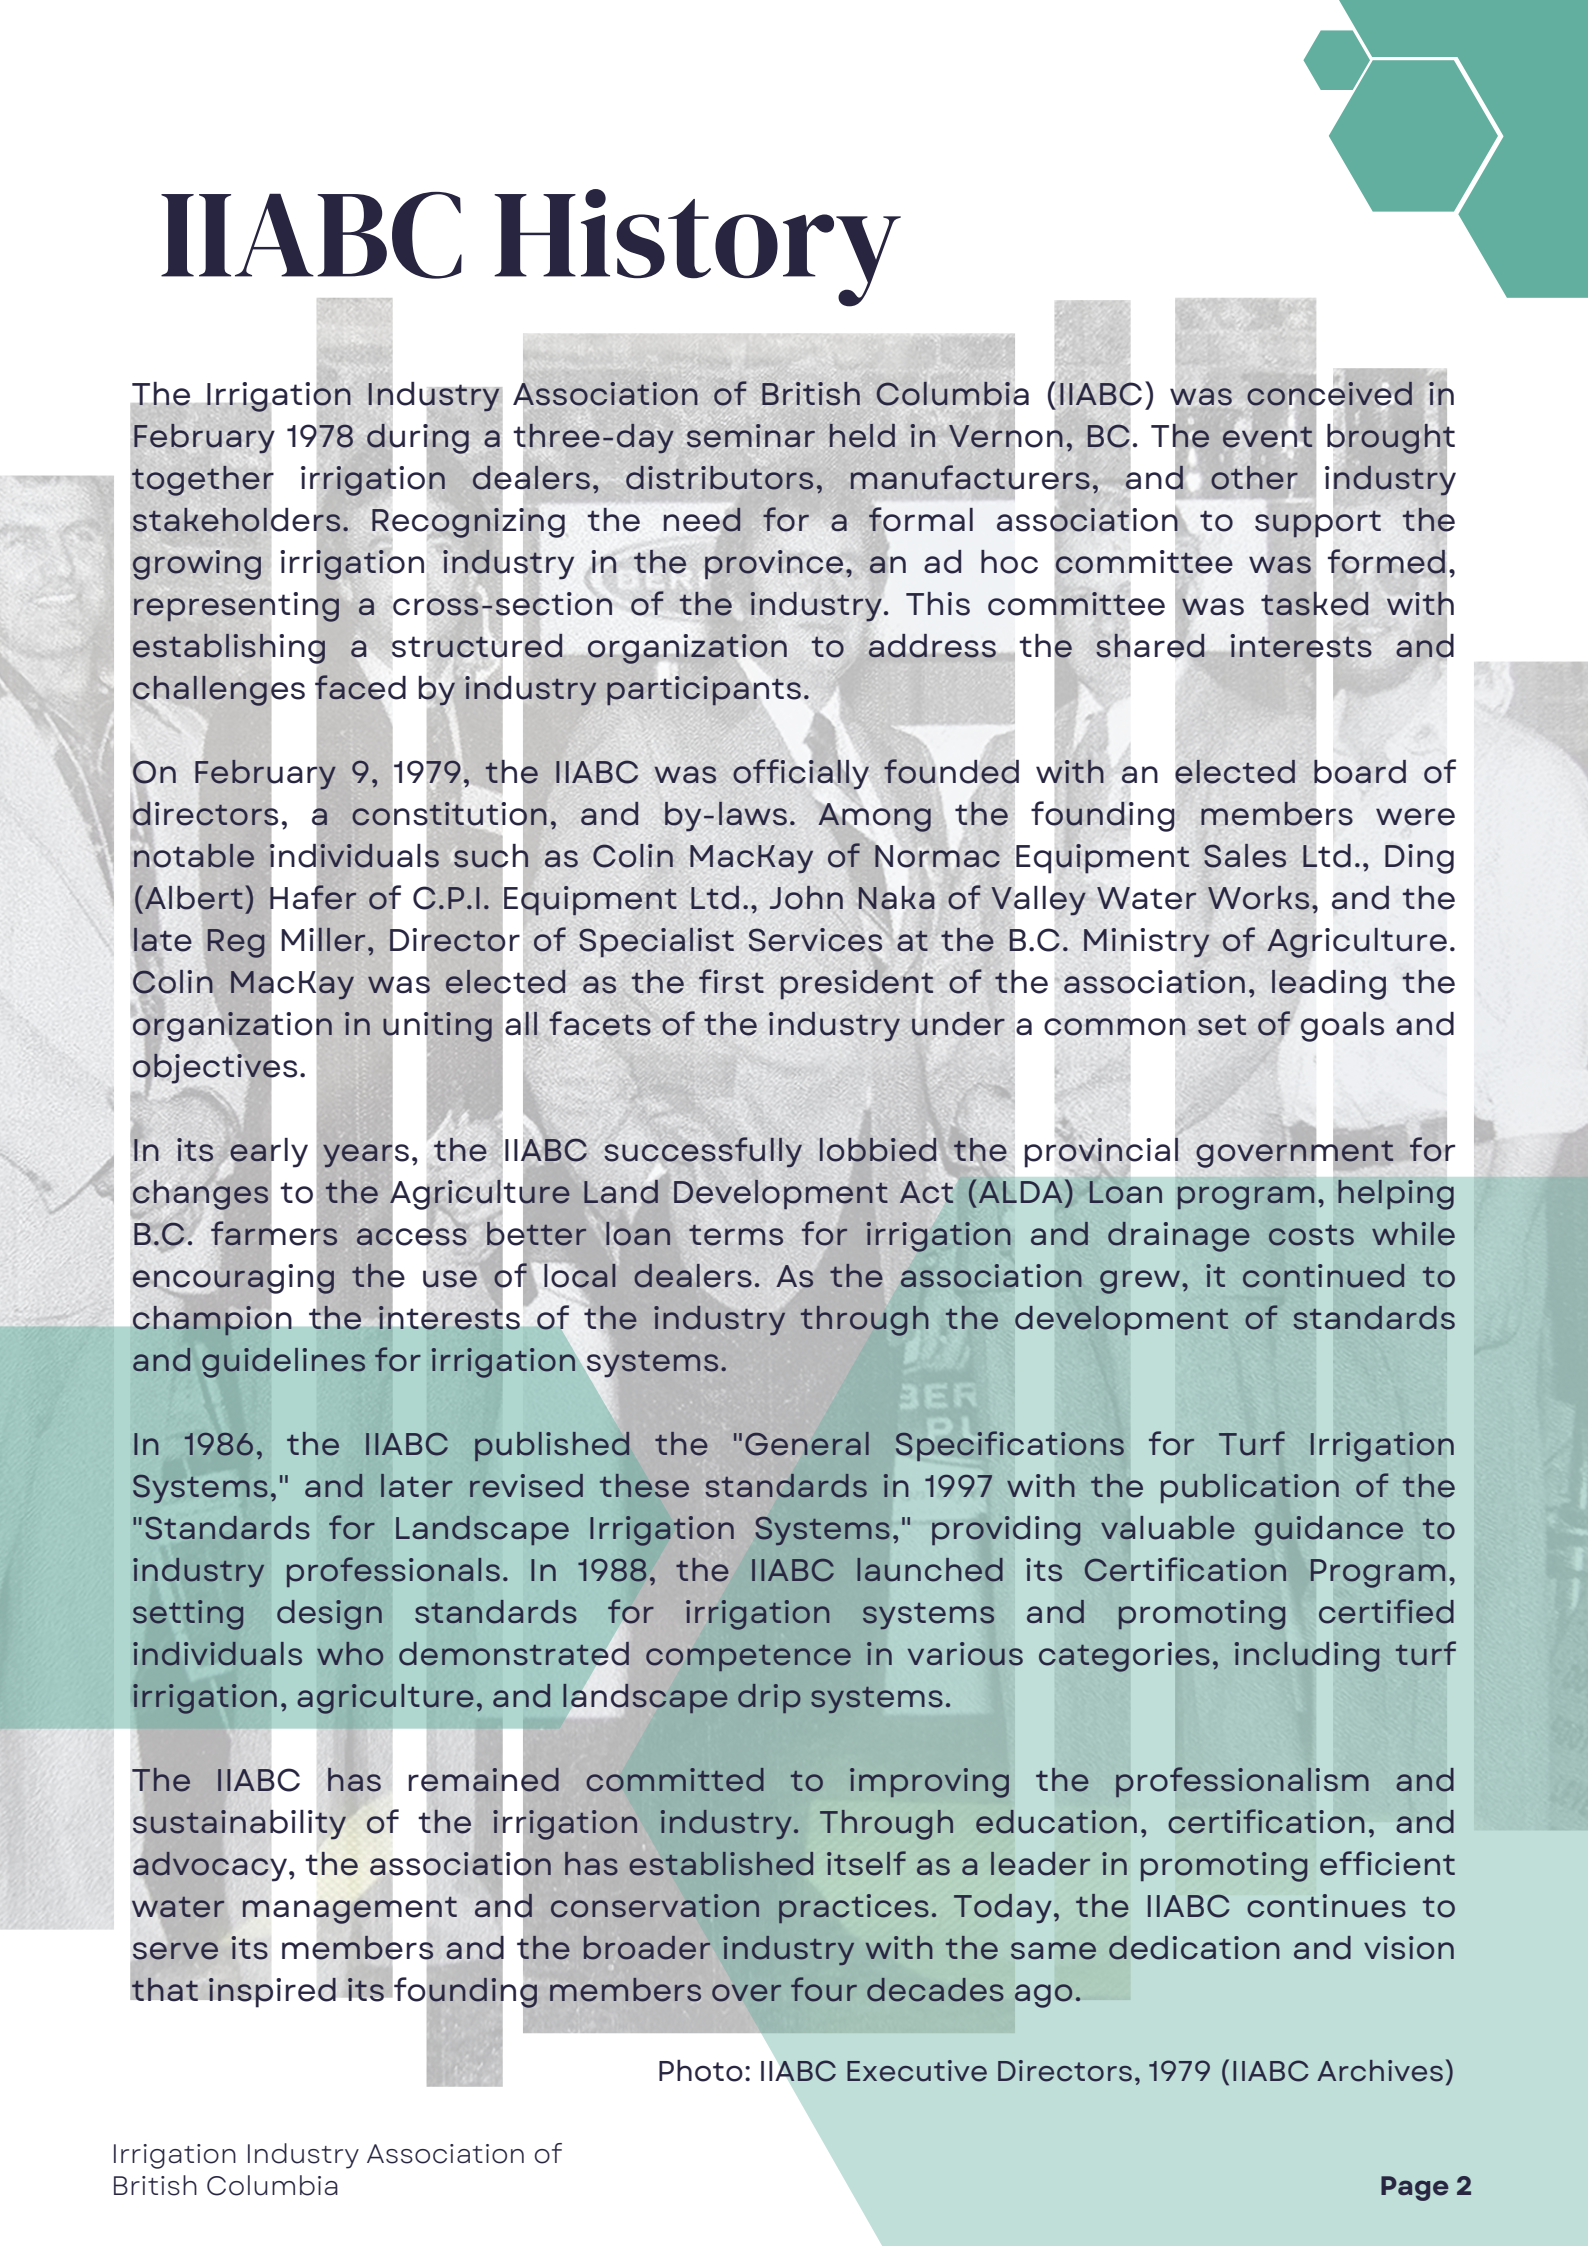

The Irrigation Industry Association of British Columbia (IIABC) acknowledges that our office in Abbotsford is located on the traditional, ancestral, and unceded territory of the Stó:lō People, particularly the Sumas and Matsqui First Nations. We recognize and deeply respect the enduring connection of Indigenous Peoples to the land, waters, and resources that continue to sustain their communities. As an organization committed to promoting responsible irrigation and water management, we acknowledge the stewardship and traditional ecological knowledge of Indigenous communities across British Columbia.

For our online education and province-wide initiatives, we also recognize and respect the diverse Indigenous territories where our members, students, and industry partners live and work.

IIABC History

The Irrigation Industry Association of British Columbia (IIABC) was conceived in February 1978 during a three-day seminar held in Vernon, BC. The event brought together irrigation dealers, distributors, manufacturers, and other industry stakeholders. Recognizing the need for a formal association to support the growing irrigation industry in the province, an ad hoc committee was formed, representing a cross-section of the industry. This committee was tasked with establishing a structured organization to address the shared interests and challenges faced by industry participants.

On February 9, 1979, the IIABC was officially founded with an elected board of directors, a constitution, and by-laws. Among the founding members were notable individuals such as Colin MacKay of Normac Equipment Sales Ltd., Ding (Albert) Hafer of C.P.I. Equipment Ltd., John Naka of Valley Water Works, and the late Reg Miller, Director of Specialist Services at the B.C. Ministry of Agriculture. Colin MacKay was elected as the first president of the association, leading the organization in uniting all facets of the industry under a common set of goals and objectives.

In its early years, the IIABC successfully lobbied the provincial government for changes to the Agriculture Land Development Act (ALDA) Loan program, helping B.C. farmers access better loan terms for irrigation and drainage costs while encouraging the use of local dealers. As the association grew, it continued to champion the interests of the industry through the development of standards and guidelines for irrigation systems.

In 1986, the IIABC published the "General Specifications for Turf Irrigation Systems," and later revised these standards in 1997 with the publication of the "Standards for Landscape Irrigation Systems," providing valuable guidance to industry professionals. In 1988, the IIABC launched its Certification Program, setting design standards for irrigation systems and promoting certified individuals who demonstrated competence in various categories, including turf irrigation, agriculture, and landscape drip systems.

The IIABC has remained committed to improving the professionalism and sustainability of the irrigation industry. Through education, certification, and advocacy, the association has established itself as a leader in promoting efficient water management and conservation practices. Today, the IIABC continues to serve its members and the broader industry with the same dedication and vision that inspired its founding members over four decades ago.

Mission, Vision & Objectives

Mission

“Promoting Efficient Irrigation.”; The Irrigation Industry Association of British Columbia (IIABC) is dedicated to advancing the interests of the irrigation industry by promoting efficient irrigation practices. Through education, certification, and the development of industry standards, IIABC fosters professionalism and sustainability in irrigation across British Columbia.

Vision

The vision of the IIABC is to be a leading organization that unites all facets of the irrigation industry, ensuring high standards of design, installation, and management of irrigation systems. The association strives to be a key contributor to the promotion of water conservation, soil management, and energy-efficient irrigation practices, helping to sustain the natural environment and support the agricultural and landscape sectors.

Objectives

- Foster and Promote the Interests and Welfare of Members and the Irrigation Industry.
- IIABC aims to support its members and the broader irrigation industry by providing valuable resources, networking opportunities, and advocacy on issues that impact the industry.
- Establish and Develop Means for the Exchange of Information and Ideas.
- By creating opportunities for knowledge sharing, IIABC fosters collaboration among members, helping to raise the standard of irrigation practices across the industry.
- Promote Guidelines, Standards, and Specifications for Irrigation Systems.
- IIABC is committed to establishing industry-wide guidelines and standards for the design and installation of irrigation systems, ensuring efficiency and quality in all projects.
- Encourage Harmony and Cooperation Among Members and Related Industries.
- IIABC promotes a cooperative and supportive environment where members and stakeholders, both directly and indirectly involved in the irrigation industry, work together for the benefit of the entire community.
- Promote Public Appreciation and Interest in Irrigation and Water Management.
- IIABC seeks to raise public awareness about the importance of irrigation and responsible water management, emphasizing the role of efficient irrigation in sustainable land and water use practices.

Board Message

BOB MARKWART PRESIDENT

Welcome to the IIABC Annual Conference & Tradeshow 2025! On behalf of the Board of Directors, it's my pleasure to welcome you to this year's conference in Abbotsford. This event is more than just an annual tradition – it's a celebration of the dedication, expertise, and passion that make British Columbia's irrigation and landscape industry thrive. For over 45 years, IIABC has been committed to raising industry standards, supporting professional development, and promoting responsible water management practices. This year, we are excited to introduce new information sessions designed to provide practical, hands-on takeaways for everyone – from field technicians and contractors to suppliers, manufacturers, and municipal staff. The conference is about connection and collaboration: learning from industry leaders, sharing new ideas, and strengthening the relationships that keep

our industry moving forward. Thank you for being part of IIABC and for contributing to the growth, innovation, and sustainability of our community. We hope you leave inspired, informed, and proud to be part of the IIABC family.

KAREN M. HOUNSOME

PAST PRESIDENT

Welcome to the IIABC Annual Conference & Tradeshow 2025! It's inspiring to see our industry come together to share knowledge, strengthen connections, and celebrate the progress we've made. I'm proud of the work IIABC continues to do in supporting members and advancing best practices in irrigation and water management.

NIGEL PEDERSON

PRESIDENT ELECT

Welcome, everyone! It's an exciting time to be part of IIABC, and this conference is an incredible opportunity to learn, connect, and collaborate. I look forward to meeting many of you and working together to build on this momentum, strengthening and innovating our industry for the future.

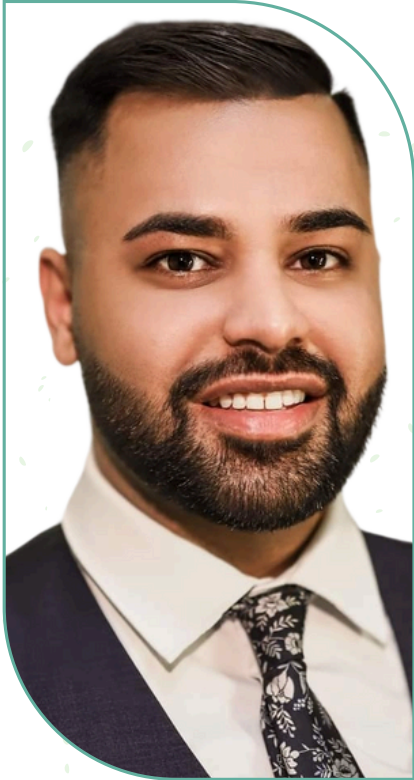

Certification Chair & Executive Director Message

DAVID PFORTMUELLER

CERTIFICATION BOARD CHAIR

Welcome to the IIABC Annual Conference & Tradeshow 2025. Education and certification remain central to IIABC's mission, helping raise professional standards and strengthen the trust our industry holds with clients, municipalities, and the public. This year has highlighted how important skilled, knowledgeable professionals are as the industry continues to focus on efficiency, sustainability, and responsible water management. Certification plays a key role in ensuring our members are well-equipped to meet these evolving demands. Thank you for your commitment to learning, professionalism, and to building a stronger irrigation community. Together, we continue to advance the industry for the benefit of all.

POSHAK SACHDEVA

EXECUTIVE DIRECTOR

Welcome to the IIABC Annual Conference & Tradeshow 2025! The Irrigation Industry Association of British Columbia (IIABC) is proud to host this annual gathering of our province's irrigation and water management community. This conference is where learning, innovation, and collaboration come to life. From hands-on workshops and CEU-eligible sessions to our two-day trade show, you'll gain tools, ideas, and connections that make an immediate impact in your work. We are also proud to celebrate the dedication and achievements of our members at the Annual Awards Night, recognizing leadership, innovation, and excellence in irrigation. Thank you for being part of the IIABC community. Your participation reflects a shared

commitment to professional growth and a sustainable future for irrigation in British Columbia. Enjoy the sessions, the trade show, and the celebrations ahead!
